AcuTop *PRECUT* Kinesiology Tape

Practical and easy to use pre-cut tapes for the direct application.

Material: 93% cotton, 7% elastane

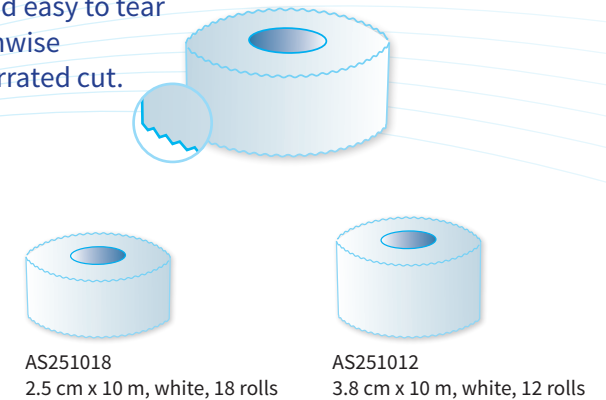

- No cutting required, can be applied directly to the skin.
- Rounded edges for a longer hold.
- 16x precut tape strips in pink & blue for 8 applications.

AcuTop *SPORT TAPE* (inelastic)

AcuTop non-elastic sports tape made of high-quality, breathable cotton enables an effective bandage technique that is used in various areas of prevention, therapy and rehabilitation of injuries to the musculoskeletal system.

The tape offers outstanding adhesion and water resistance. It is particularly durable and easy to tear in the crosswise and lengthwise directions thanks to the serrated cut.

Material: 100% cotton
